Ohio Speech & Hearing Governmental Affairs Coalition
Legislative Activities Report
April 2018

Lawmakers recessed for two weeks at the end of March/beginning of April and returned to session on April 11th. Senate President Larry Obhof recently announced that the Senate will likely have two session days in April and at least one session day in May before breaking for summer recess. While the session schedule for the second half of the year is still uncertain, Obhof indicated that his chamber may schedule sessions in September. The House added an additional session day on May 16th.

Before the spring break, both the House and the Senate agreed to the $2.6 billion capital budget bill (HB 529). The capital budget is used to fund projects ranging from K-12 and higher education facility construction, road improvements, water and sewer projects, and numerous other public projects. In years past, some of our speech and hearing center members have sought and received capital budget dollars. This year, the focus of much of the spending in the bill was projects related to addressing the opiate epidemic.

On April 10th, House Speaker Cliff Rosenberger announced his resignation as Speaker of the House, effective immediately. In addition to his leadership post, he is also resigning his House seat at the end of the month. His resignation is related to an FBI probe of possible campaign finance or other violations, about which he has maintained his innocence. Taking over leadership of the caucus is Speaker Pro Tempore, Representative Kirk Schuring (R-Canton).

GAC was approached by Senator Kenny Yuko’s office recently to participate in an interested parties meeting on music therapy. The music therapy association has asked him to sponsor their licensure legislation. Because we testified as opponents on the bill last session, the Senator has asked us to review the changes in the new draft and determine if we would still be opposed. The bill has been revised since the last time GAC reviewed it and now contains the following language:
“(C) A licensee shall not do either of the following:

(1) When providing educational services pursuant to division (B)(4) of this section, replace speech and language services typically provided to a child with a disability who has been identified as having a speech or language impairment pursuant to section 3323.03 of the Revised Code;

(2) When providing rehabilitative services pursuant to division (B)(4) of this section, replace the services provided by a speech-language pathologist.

(D) Nothing in this section shall be construed as prohibiting a licensee from providing services to a client diagnosed with a communication disorder.”

It seems this language may have been added in an attempt to respond to some of the scope of practice violation issues that we raised last time the bill was pending. That said, it is unlikely that the inclusion of this language would prevent them from assessing and treating communication disorders. Since this is the sole domain of audiologists and speech-language pathologists, it cannot be in the scope of practice for music therapists. It seems we would need to see a defined scope of practice for music therapists listed in the draft. GAC will have to review this bill carefully and determine our position in advance of the interested parties meeting, which is yet to be scheduled. GAC did proactively engage our collaborators on this issue from the last time this arose; they include the Licensure Boards and the OT and PT associations. All have agreed to participate in the upcoming dialog on this possible bill.

Outside of the legislature, GAC continues to collaborate with the Ohio School Health Services Association (OSHSA). You may recall that OSHSA is a collaboration of related service providers in the schools, Medicaid billing agents and school districts. Representatives of the Licensure Boards, ODE and ODM also participate as ex-officio members. Per GAC agreement, Kelly O’Reilly represents GAC on the group. Kelly also serves as the Advocacy Chair for OSHSA; this is a position on the Board, where Kelly weighs in on happenings in the General Assembly. Kelly does not lobby for OSHSA; they have their own separate lobbying firm that represents them in the General Assembly.

GAC discussed the creation of OSHSA and decided to participate in OSHSA last Spring after we were able to work collaboratively with these groups toward a solution on the ORP/MSP issue that arose at the end of 2016. As you may recall, there have been a number of MSP issues through the years that GAC has worked hard to address with the Licensure Board, ODE and ODM, including clarifying the status of the conditional license holder, ORP status of school-based SLPs and AUDs, and the ethical impact of the ORP resolution under the licensure laws, among many others. In working through those issues, we have found that the silo approach can result when state agencies are not effectively communicating or do not fully understand how the issue may impact our scope of practice. Accordingly, it was our hope that collaboration with all
the stakeholders through participation in OSHSA would help us achieve better, quicker results for our school-based SLPs and AUDs and the children that they serve.

On the administrative front, the Ohio Department of Insurance recently submitted a request to waive the individual health insurance mandate. This comes in the form of a request for a state innovation, or Section 1332 waiver, which would eliminate the requirement that individuals in Ohio maintain health insurance. ODI submitted the application to the U.S. Department of Health & Human Services on March 31st. In addition, they are also preparing to submit a separate waiver request that would strike a mandate that most large employers offer health insurance coverage to employees or pay a fine. ODI expects to release that application later this spring. Lawmakers required ODI to prepare both waivers in the biennial budget (HB 49).

Ohio’s unemployment rate dropped for the second month in a row as the state added 13,500 jobs in February, the Department of Job and Family Services recently reported. The unemployment rate fell from 4.7% in January to 4.5% in February. A year ago, Ohio’s unemployment rate was 5.1%. The U.S. unemployment rate for February was 4.1%, which was unchanged from January.
